

10 CRORE
RUPEES A YEAR
96,000 Dialysis

**"Every middle class family is one
hospital bill away from **poverty.**"**

"Zakat is no longer arriving as charity.
It is arriving as a **bill.**"

THE REACTIVE FUND DRAIN

Dialysis & Renal

Cardiac Events

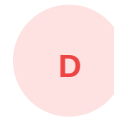

Amputations

Sudden ICU Bills

THE SILENT KILLERS

101 Million

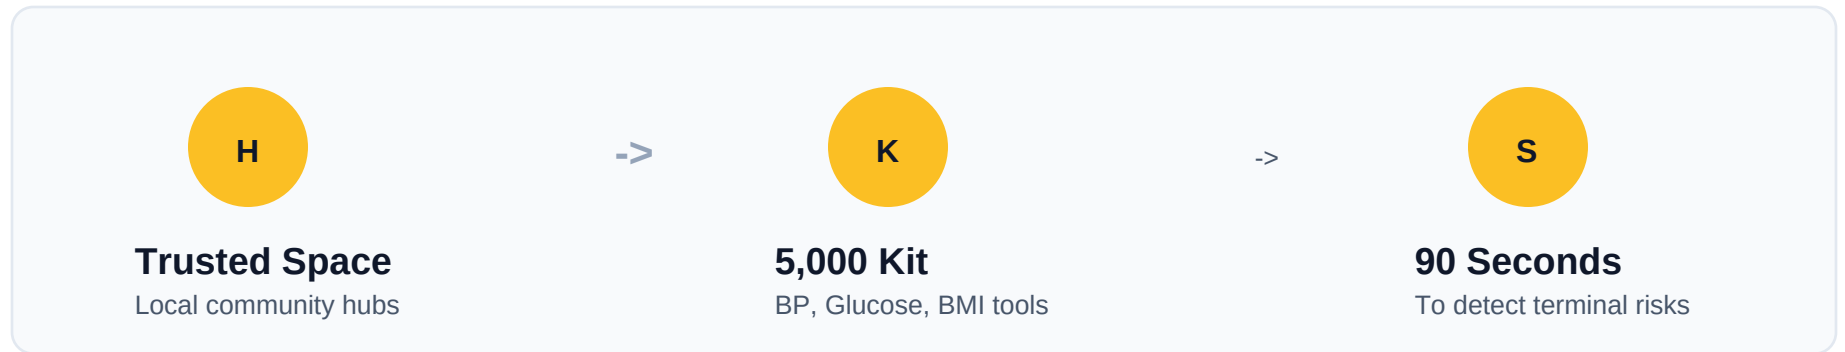

Active Diabetes Cases (11.4%)

22.6%

Adult Hypertension (Scales to 68% in Seniors)

■ Intercepting the Crisis

REACTIVE CARE

1,58,880

Cost of 1 Dialysis Patient for 1 Year

PREVENTIVE CARE

15

Consumable Cost per Early Screening

■ Sehat Ledger

1

VISION CAPTURE

No typing.

Camera reads monitors instantly. Zero data loss.

2

LOCAL REFERRALS

No confusion.

Auto-generates slips in Urdu, Kannada, & Hindi.

3

AGENTIC FOLLOW-UP

No generic SMS.

AI navigates specific obstacles on Day 3 & 10.

4

THE HONEST LEDGER

No vanity metrics.

Credit is written ONLY when a doctor is visited.

■ AI Powering the Care Loop

Vision Capture

GEMINI-FLASH OCR

Volunteers point phone camera at device screen.
Generates highly accurate digits, fully structured.
Refuses to guess if the display is fuzzy or obstructed.

Local Languages

PRACTICAL TRANSLATION

Automatically writes referrals in Kannada, Urdu, Tamil, or Hindi.
Supervisors get English gloss for instant audit.
Volunteers read scripts matching patient literacy.

Agentic Follow-Up

BARRIER RESOLUTION

AI follows up on WhatsApp.
Classifies specific barriers:
- Clinic timing conflict
- Cost / transportation
- Disease severity doubt
Dynamically redirects to evening PHC / clinics.

■ The Preserved Zakat Ledger

Audit-Ready Projections

STRICT ATTRIBUTION MODEL

Every rupee of deferred healthcare burden is calculated dynamically based on local clinical complication costs.

The Gating Rule:

*Zero impact credit is written for screenings done or slips printed.
Credit is written ONLY once the AI loop confirms clinical entry.*

50% Conservatism Factor

All outputs are halved to remain defensible.

Attributed Preserved Capital (per case)

Renal Failure Avoided	3,575
Cardiac Events Prevented	2,160
Stroke Complications Avoided	1,980
Diabetic Foot Amputations Avoided	900
Vision Loss Prevented	1,260
